

High Definition Offset Machine

200-15X20

Inspiration • Innovation • Satisfaction

Our work policy is on based on three simple words

"ROMCO" 200 is perfect for short-run and low-end jobs, both at Letter Press Units and large Offset Printing Houses. It is being used by various DTP units, large Xerox (Photocopies) and Screen Printing Houses as well as small Enterprises.

It is the ideal upgrade solution, as it can print using both Direct Offset Master (Poly Master) as well as Plate. The Maximum Paper Size available in this machine is 15" x 20". All the bearings fitted in the machine are of standard brands. Body cover are powder coated, giving its elegant look.

200-15X20

PARTICULARS	SPECIFICATION
Dimensions	66"L x 44"W x 57"
Weight	1025 Kg.
Power Requirements	200-240 AC
Maximum Paper Size	15.5"W x 20.5"L
Minimum Paper Size	5"W x 7"L
Maximum Image Area	14.5"W x 20"L
Paper Weights	30-300 GSM
Blanket Thickness	1.9 mm (4 Ply Rubber Blanket)
Blanket Size	18" x 21.25"
Plate Size	16" x 21"
Gripper Margin on Paper	8 mm
Gripper Margin Plate	1.25"
Feeding System	Suction Feeding
Ink Rollers	12 Ink Roller, Includes: 3 Oscillators, 2 Form Rollers
Dampening Rollers	5 Rollers, Include: 1 Oscillators, 2 Form Rollers
Printing Speed	1500-5000 IPH
Main Drive Motor	1.5 HP Single Phase
Compressor Pump Motor	1.0 HP Single Phase
